EWA ECO-WOOD-ART BRINGS MECHANICAL MAGIC TO TOY FAIR 2026 AT BOOTH #6720

Pinsk, Belarus (December 17, 2025) – There are tons of toys both new and old that are made of wood, but we bet you’ve never seen anything like this before! **EWA Eco-Wood-Art**, a Belarus-based company which makes STEAM construction kits and mechanical models, is counting on it as they make their **New York Toy Fair debut this year at Booth #6720**. Founded in 2026 with the goal of creating unique, high-quality mechanical models from all-natural materials, EWA now has over 400 unique birch plywood 3D puzzles that range from beginner friendly to mind-bendingly complex, all of which reinforce STEAM skills like spatial awareness, engineering knowledge, and aptitude with complex directions/assembly!

Each EWA kit has satisfyingly thick birch plywood sheets with pieces laser pre-cut to precision, and building tools are packed inside the box, meaning you’re ready to start building immediately! Clear step-by-step instructions are included ensuring that even curious crafters new to the hobby will be able to keep up with the most seasoned puzzle or model masters. And from vehicles of all sorts, to nearly every animal you can imagine and beyond, EWA has a kit out there for everyone! Whether you’re introducing a teenager to the joys of model building, or a retired parent looking for a new hobby, EWA kits are the perfect entry point. Better yet, none require glue or specialized tools!

If you’re “feline” like getting a new wooden toy, we’ve got the “purr-fect” kit for you! **EWA’s Kitten (\$47.99)** set comes in 236 pieces and looks positively precious when all put together. Paws, ears, tail and ears, every detail is carefully engineered to look the part. You’ll be delighted by how sophisticated the face is when built! And best of all, **YOU** build the clever spring and rubber band mechanism that lets you wind it up and watch it walk all on its own! Choose from either Kitten (bare wood), Black Kitten or Ginger Kitten!

But if you’re more of a dog person, fret not! There’s also a very “fetching” **Puppy (\$44.99)** set! At 220 pieces, this build is pleasantly complex, but with an intuitive and satisfyingly simple build! Engraved detail adorns each piece that illustrate your pristine new pet’s face, eyes, mouth and fur. Details like individual toes and a lightly protruding tongue provide even greater immersive detail for your wooden pooch. Turn the dial on the side to wind its internal spring mechanism and let it loose for a solo walk. No leash necessary!

Replicate the most broadly beloved reptile with EWA’s **Turtle (\$44.99)** set! This 269 piece set features finely etched detail all over each piece, illustrating scaly skin, and a rough, ridged shell texture. The mesmerizingly segmented shell houses a rubber band-powered walking mechanism that you can wind up with the dial on its belly. Watch its mighty legs trudge forward with a distinct turtle gait!

The mighty **Triceratops (\$44.99)** joins EWA 3D puzzles to bring a nice vintage to the animal selection. Crafted from exquisitely cut pieces, this 283 piece set comes together in a way that accentuates and mimics this massive creature's powerful musculature. Triceratops' distinctive head shape is faithfully depicted through a combinations of ingenious engineering and incredibly intricate etched detail. Scale and horn detail coalesce to make this a must-have display piece. Wind up the rubber band engine and let it stomp along, unstoppable as the original Cretaceous creature!

For such a technical toy, it makes a ton of sense to lean into the mechanical look! The 273-piece EWA **Bike (\$35.99)** turns a classic tourist bike into gorgeous 3D-puzzle splendor. Complete with complex angles, diagonals and slick industrial design details, you'll scarcely believe this beautiful bike is built from wooden pieces. Essential details are replicated with care, like headlights, a windshield, and even side panniers. As part of the breezy and enjoyable build, you'll assemble a fully functional pull-back engine mechanism, for incredible zooming play-action once complete. Rubber band-reinforced suspension adds an even

more immersive dimension to this fully birch bike! See also the 152 piece EWA Cruiser (\$21.99) set for a more easygoing experience. Admire the visible engine and the aesthetic flourish of the mechanical frame. Just pull it back, let go and watch it cruise!

Up the vehicular ante by adding more mass, more wheels and more color! The **Harvester FS80 Pro (\$47.99)** set comes with colorful wooden sheets so that your assembled mechanical masterpiece is a beautiful red and black farming machine. The 181 piece set features play features like a detachable cutter bar and a rotating silage line, plus exquisite printed and sculpted detail that makes it an unmistakable portrait of the real work vehicle. If orange is more your hue, consider the 144 piece **Mini Dump Truck (\$44.99)**! The Mini Dump Truck set features a striking two-color design, rotating wheels and a lifting bed for added play value.

It's truly an excellent set for beginners to the hobby! For the ultimate challenge and resultant reward, seek the EWA **Tractor (\$71.99)** set at 357 pieces. This delightfully detailed set has it all; opening doors, an opening hood, a 4-gear shift system and a realistic engine. This set is the perfect gift for your most meticulous puzzle and model building buddies.

EWA sets must be seen to be believed, so come visit them at **Booth #6720 at Toy Fair** or visit their website <https://eco-wood-art.by/en/> for more information! Build mind-blowing wonders with Eco-Wood-Art!

About Eco-Wood-Art:

EWA Eco-Wood-Art is a team of professionals with the shared idea to create fascinating STEAM construction kits of realistic mechanical models for self-assembling (without glue or specialized tools), made of natural, pure and safe materials. EWA Team works hard every day with high-quality materials and technology. We use creativity and inspiration to create new wooden construction kits, puzzles and interior items that ensure entertaining spare time, stylish view and safety for people of all ages.
