BRING IMAGINATION BACK TO PLAYTIME THIS HOLIDAY WITH MILLER BOYS VINTAGE TOYS

Miller Boys Vintage Toys Has Honed Its Focus to Offer Premium Wooden Toys That Celebrate the Brilliant Simplicity of Play

Huntington Beach, CA (August 13, 2026) – New parents and friends of parents are gearing up for holiday shopping season, brainstorming ways to offer children with curious minds real, tangible toys to help develop both fine motor skills through physical play, and cognitive functioning through imaginative play. Independent toy company **Miller Boys Vintage Toys** understands this keenly, and has developed an entire range of high quality, sturdy, wood toys to help bring the excitement of opening presents back to the holidays. Miller Boys strives to bring back the joy of traditional play while fostering a love for the planet, not to mention the toys are designed and **Made in the U.S.** and Canada.

Suzanne Collins Miller founded Miller Boys Vintage Toys to provide a rich play experience for the namesakes of the company, her four young boys. With her children acting as both inspiration and motivation, Suzanne worked over the years on preliminary sketches for toys, even when life got busy, as it so often does as a mom of four! Now, the company has scores of offerings across multiple age recommendations and here are a handful of suggestions for excellence in holiday gift giving:

BABY

Miller Boys has plenty of options for little teethingers, just one of which is their **Silicone Bead Teether with Organic Cotton Bag. (\$28.00, Age 3 months+)** Designed to delight and calm little ones, this teether combines soft, sensory-friendly silicone beads with smooth wooden textures for a perfect teething experience. Made with safety in mind, it's gentle on sore gums and oh-so-fun to chew. The natural wood surface helps massage tender gums, giving babies the comfort they need as those tiny teeth come through. Miller Boys' teethingers come in a custom drawstring bag. Take note of three delightful styles offered: **Calming Moon, Ladybug, and Heart.**

TODDLER

It's never too early to start kids on their educational journey, and early years can be a wealth of self-directed play. The **Montessori Educational Wooden Pickup Truck (Small - \$24.00 | Large - \$36.00, Age 1+)** is inspired by the timeless charm of 1950s pickup trucks, perfectly encapsulating the classic style of play that Miller Boys is going for. This beautifully crafted wooden toy is designed for little hands and growing imaginations. Made from certified mahogany wood and finished with child-safe, eco-friendly dyes, the truck encourages open-ended play, fine motor development, and independent exploration. Offered in blue, pink, red, and natural wood colors.

For those toddlers with a need for speed, gift hunters should check out the **Dyed Maple Wooden Indy Car Set**, either sold as a standalone set, or bundled with a wooden **Racetrack** for nonstop zooming fun! (**Car Set - \$100.00 | or with Racetrack Bundle - \$120.00, Age 1+**) Each set comes with cars in vibrant red, orange, yellow, green, and

blue, rolling fast on sturdy black tires and dyed with a water-based, non-toxic, solvent-free, and eco-friendly wood stain from England. The 5 ft. long × 11" wide × 0.2" thick wooden press board track gives kids plenty of room for straightaways, speed, tests, and epic finish-line moments. This vibrant, multicolored set looks elegant in a toy collection (or under a tree) and is built to last for rigorous, experimental play!

LITTLE KID

For young sprouts who have graduated beyond being a toddler, but are still too early for pre-school, Miller Boys' **Wooden Stackable Truck**

(\$85.00, Age 3+) is the perfect combo of fun, learning, and hands-on creativity. The interlocking puzzle pieces provide a rewarding challenge that enhances problem-solving and critical thinking skills. With beautiful, printed illustrations on the sides of the pieces, kids must assemble them in a specific order to complete the full truck scene. As they figure out which pieces fit where, children sharpen their sense of space, shape, logic and design. The Stackable Puzzle Truck comes in five fun styles: **Flower Delivery**, **Car Transporter**, **Horse Trailer**, **Fire Truck** or **Ice Cream Truck** for even more pretend play potential.

The **Dinosaur Magnetic Wooden Puzzle Set (\$100.00, Age 1+)** is designed for toddlers and preschoolers, featuring six simple yet exciting puzzles starring mighty ancient lizards like Triceratops, Brontosaurus, Ankylosaurus, Stegosaurus, Tyrannosaurus Rex, and Velociraptor. For kiddos who prefer playing pretend in fantastical, imaginative lands of princesses, unicorns and dragons, there's also the **Fairytale Magnetic Wooden Puzzle Set!** Each chunky wooden puzzle piece is brightly colored, easy to grip, and magnetized, so it stays in place while little ones are working on their masterpieces. As

they piece together these dino and fairytale friends with a satisfying magnetic "click," kids build fine motor skills, hand-eye coordination, and spatial awareness. And when it's time for cleaning up, you can use the organic cotton drawstring bag to make sure no pieces get lost or make it easy as can be to bring the set with you on trips.

PRESCHOOL

Foster a curiosity for all things culinary with Miller Boys' **Kid's Chef-in-Training Wooden Cutting Board with Handcrafted Wooden Knife** in either **Fruit** or **Veggie** decorative styles.
