MILLER BOYS VINTAGE TOYS OFFERS PERFECT HOLIDAY GIFTS THAT CHAMPION TRADITIONAL PLAY

High-Quality Wooden Toys from Miller Boys Vintage Toys Cover a Wide Age Range of Little Ones - from Infant to Elementary Schooler

Huntington Beach, CA (September 24, 2026) – Traditional, natural wooden toys are alive and well in the toy and gift market today thanks to the concerted effort of small businesses like **Miller Boys Vintage Toys**. The screen-free premium quality toys developed from Miller Boys Vintage Toys are made to be sturdy, safe and ideal for imaginative, natural play that is so critical for early childhood development. Whether you're seeking a stimulating sensory toy for a new baby, an active pretend play buddy for an energetic toddler, or an engaging puzzle for pre-school kiddos to develop their problem-solving skills, Miller Boys Vintage Toys has any gift hunter covered.

Founded by businesswoman and mother Suzanne Collins Miller, Miller Boys Vintage Toys was created to provide a rich play experience for the namesakes of the company, her four young boys. Life gets busy as a mom of four, yet Suzanne's passion kept her driven as she created design drafts and sketches for the perfect toys. Over the years, Miller Boys Vintage Toys has developed scores of offerings across a wide range of ages to provide kids with toys that develop gross motor skills, problem solving, imagination and more. Below are just a small handful of recommendations for holiday gift giving, based on age!

BABY

Introduce your baby to investigative play with the [Bird Rattle & Teether](#) (\$26.00 | Ages 3 months +). Thoughtfully designed for tiny hands, this charming bird-shaped toy combines soothing teething relief with engaging sensory play to support your baby's early development. This lightweight bird rattle has a large, cut-out center that is easy for infants to grasp, hold, and shake. The simple act of reaching, grabbing, and exploring helps develop gross motor skills, hand-eye coordination, and early muscle strength while encouraging curiosity and discovery. This bird rattle is decorated differently on both sides, with each side highlighting the natural beauty of the wood grain. Crafted from solid maple wood, the Bird Rattle & Teether is naturally durable, non-toxic, and eco-friendly. This wooden birdy comes in three unique and striking styles: **Dots**, **Brick Red** and **Feathers**.

The [Merry Roll Along](#) (\$48.00 | Ages 3 months +) is a whimsical push toy that provides giggles, wobbly walks, and endless exploration for babies! Inspired by Montessori principles, this rolling companion encourages your little one to explore the world independently on wheels. Decorated with sweetly rendered farm animals, babies will be drawn in by the friendly faces and invited to engage in self-directed play. Grasping the sturdy handle boosts fine motor skills, while the smooth-rolling action sparks sensory development and gross motor coordination. The elegant design offers versatility in developing crawling, standing, walking and exploration skills in babies, improving their balance in each stage of movement. The Merry

Roll Along encourages independent, self-guided discovery through play and whole-body movement. From baby's first push to their daily zoom-around-the-room routine, the Merry Roll Along serves triple duty as a movement mentor, imagination igniter, and a Montessori must-have!

TODDLER

Kiddos can bring a procession of pals to playtime with Miller Boys' [Maple Wood Animal Wooden Pull Toy](#) (\$64.00 | Ages 1+). Featuring three beautifully crafted wooden animals, each one linked together in a charming little train, this toy is ready to tag along on every journey. Just grab the sturdy string and let the good times roll! As your child pulls their animal friends behind them, they're having a blast while boosting gross motor skills, balance, and coordination. Pulling the toy teaches cause and effect while maneuvering around furniture and corners builds spatial awareness and problem-solving skills. It's hands-on learning at its finest! Made from sustainable wood and non-toxic inks, this toy is just as gentle on the planet as it is on tiny hands. Choose from three animal varieties depending on your kiddo's favorite: **Dog, Bear and Duck!**

LITTLE KID

The perfect synthesis of learning and play, the [Magnetic Personalized Letter Train Set](#) (\$24 to start, \$10 per letter | Ages 1+), is a Montessori-inspired classic for kids who can't get enough trains. Each letter has a playful animal friend that starts with that letter - A for Armadillo, B for Bear, and so on! Each personalized train comes with a 100% organic cotton drawstring bag to pack up when playtime is finished or easily take the letter train fun on-the-go. This Wooden Letter Train Set is a rolling classroom, storytelling spark, and creativity engine all in one. Start with a personalized set spelling your special child's name and periodically add letters over time to make the full alphabet! This versatile set provides so many opportunities for gamified learning, spelling challenges, and good old fashioned "choo-choo" based rolling play!

PRESCHOOL

Say hello to smart, problem-solving playtime and a truly wow holiday gift! The 40-piece [ABCs & 123s Magnetic Learning Tile Set](#) (\$100.00 | Ages 3+) turns ordinary learning into an engaging, hands-on playtime challenge. Inspired by Montessori & Waldorf principles, these double-sided tiles are packed with playful possibilities for building brains and sparking curiosity! One side of the tiles includes the full alphabet - two sets of vowels in white, consonants in black, plus extras of the most-used letters. This presentation of letters is perfect for little learners to start spelling, sounding out, and reading with confidence. Flip the tiles over and kids will be greeted with an entirely new learning system! This side features ten vibrant color sets, which each include four kinds of tiles: a numeral, the word spelled out, the color name and an object to count and identify. Kids can play freely by spelling out their own words and making up stories with the illustrated tiles or be challenged to match sets together and list the alphabet in order; the versatility of this set is off the charts! And thanks to built-in magnets, everything stays in place.

You can find a full list of offerings from Miller Boys Vintage Toys on their official website <https://millerboysvintagetoys.com/> and their retail partner <https://www.janieandjack.com/>. Foster a love of imaginative play and healthy development in young minds with holiday gifts from Miller Boys Vintage Toys!
